2 A credit rating is an assessment provided by Nationally Recognized Statistical Ratings Organization (NRSRO) of the creditworthiness of an issuer with respect to debt obligations, including specific securities, money market instruments or other debts. Fund ratings are subject to change and are based on several factors, including an analysis of a portfolio's overall credit quality, market price exposure and management. Fund ratings are provided to indicate the creditworthiness of the underlying holdings in the portfolio and offer a forward-looking opinion about fixed income funds' capacity to maintain stable principal (net asset value). The ratings will generally range from AAA (highest) to D (lowest). For more information on rating methodologies, please visit the following NRSRO websites: www.standardandpoors.com and select "Understanding Ratings" under Rating Resources on the homepage; www.moodys.com and select "Rating Methodologies" under Research and Ratings on the homepage; www.fitchratings.com and select "Ratings Definitions" on the homepage.
3 Portfolio composition is subject to change. An investment category listed with "other" in the name indicates that the underlying holdings did not fall into the SEC's more narrowly defined investment categories.

Invesco Distributors, Inc. is the distributor for the Fund, which is an indirect, wholly owned subsidiary of Invesco Ltd. Invesco is not affiliated with CAVU Securities, LLC.
