2 A credit rating is an assessment provided by Nationally Recognized Statistical Ratings Organization (NRSRO) of the creditworthiness of an issuer with respect to debt obligations, including specific securities, money market instruments or other debts. Fund ratings are subject to change and are based on several factors, including an analysis of a portfolio's overall credit quality, market price exposure and management. Fund ratings are provided to indicate the creditworthiness of the underlying holdings in the portfolio and offer a forward-looking opinion about fixed income funds' capacity to maintain stable principal (net asset value). The ratings will generally range from AAA (highest) to D (lowest). For more information on rating methodologies, please visit the following NRSRO websites: www.standardandpoors.com and select 'Understanding Credit Ratings' under Rating Resources 'About Ratings' on the homepage; <https://ratings.moody.io/ratings> and select 'Understanding Ratings' on the homepage; www.fitchratings.com and select 'Ratings Definitions Criteria' under 'Resources' on the homepage. Then select 'Rating Definitions' under 'Resources' on the 'Contents' menu.

Yields (%)

as of June 30, 2025

The performance data quoted represents past performance. Past performance does not guarantee future results and current performance may be lower or higher than the performance data quoted above. The investment return and principal value of your investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. You may obtain performance data current to the most recent month-end by visiting invesco.com. The SEC yield listed reflects fee waivers and/or expense reimbursements in effect for the period. Had the Adviser not waived fees and/or reimbursed expenses, your 7-day SEC yield would have been 4.20%. Average annual total returns reflect reinvested distributions, net of expenses for the periods. The 7-day SEC yield more closely reflects the current earnings of the fund than the total returns shown.
